

## NEWS FROM AUSTRIA

Thanks for sending us the Newsletter, I really appreciate it, it's great to hear the news from 'down under' and read something in English! Natalie has recently sent me the UK Sahaj Newsletter, so I'm really excited, as it is also full of wonderful talks from Shri Mataji, and when you are in a foreign land you crave to hear or read anything at all about Mother, as it is not so easy when you are away from the larger collective, ie Vienna, to hear the latest. The Austrian equivalent Newsletter is of course in German, and it is OK as I am learning to understand the language, but there isn't usually much about Shri Mataji in it.

Anyway not much else is happening at the moment, Franz has finally become a couple of big jobs, so he's very busy. I'm still trying to be the good little Austrian housewife and learn how to do all the baking that is underway at the moment for Christmas. (Lucky for me Franz is not so keen on cakes and cookies, he'll settle for a good ol' bar of chockie any day!!) We had snow last week and all was white, but now it's all melting again as it's been too hot, (all those right siders baking away!!).

I have been very lazy and haven't written all year to anyone (not even my mum!) but there's always the phone and it was good to catch up with a few Aussies in Cabella. So keep up the good work Diana, and hope to see you again soon.

Please give our love to everyone and we think of you all often.

Lots of love and good vibrations, Susi and Franz Baumgartner.

Merry Christmas to all...  
and to all a Good Night

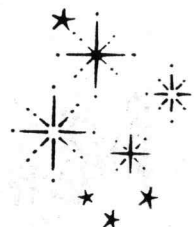

There will be no Newsletter until Saturday night programs resume on the 16th January.

We should realise what we are. This is very important for Sahaja Yoga. Christ has said, "I am the Son of God", alright. He said it openly, so people crucified Him for that. But he said it openly "I am the Son of God, do what you like", which was a fact, which was the truth he was supposed to say. So now Sahaja Yogis have to say "I am the son or daughter of Adi Shakti". Once you say to yourself that, suddenly you will start changing because it's a very big position, it's a very anointed position. Once you start saying that then you will start understanding what is your responsibility.

Subject: Cured Diseases

Date: November 23, 1998

Dear Mark,

Can you please broadcast this message ? It concern the request of Guido to document cured disease through Sahaja Yoga. I have receive until now only 5 answers. That's not enough. As bad news never comes alone, I have lost the 5 answers through a wrong manipulation in my PC. Sorry for that... So, those who have already answered me, can you please send me once again your message. And those who haven't yet answered me, can you send me a message very soon. It will be nice if before India Tour, all the answers are collected. It isn't difficult, you just have to fill in the following form:

NAME:

COUNTRY:

AGE:

SEX:

DATE OF REALISATION:

DISEASE (sufferings):

CURED WHEN (DATE):

Again, it has to be done immediately. In each country, a Yogi or Yogini should collect those information among the collectivity, like this I'll get only one mail by country. (which I won't lose that time...)

JUST FILL UP THE FILE LIKE THIS. DON'T MAKE SPECIAL LAYOUT. IT WILL BE EASIER FOR ME TO MERGE ALL THE MAIL INTO ONE DOCUMENT THEN.

Thank you very much and again, sorry to have lost the few answer I've got.

Much love,

Sergio

## *A Christmas Poem*

Christmas is a time of cheer  
That comes at the end of every year  
To celebrate Christ's birthday  
And not only to give presents away.

So every girl and every boy:  
Mother has come to give us joy.  
So on this day in every nation  
We pray to you, Mother, for your vibration.

Our agnya opens on this day  
And all our negativity goes away.  
Your vibrations are as cool as a river  
That always come to clear our liver.

And so with your face so radiant and bright  
We pray to you with strength and might.
