

This is a brief report on Sahaja in Malaysia and Thailand as observed by myself, a visiting Sahaja Yogi who previously knew little about the state of affairs in these two countries.

I was warmly welcomed by the Tan's, in Kuala Lumpur. There are 22 to 24 Sahaj Yogis and Yogini's travelling to Singapore to meet Mother in transit from Calcutta to Perth on Feb 6th. As I left, everyone was organizing transport and were excited by the prospect, some meeting Mother in person for the first time. Thailand has a much more embryonic collective. Janine Shrethraputra made my stay in Thailand very enjoyable and I learnt a lot about life in Bangkok. There are about 15 people meditating in Thailand. Thailand's Sahaja yogis are putting a lot of attention on some of the many problems in Bangkok such as prostitution, lack of innocence and major traffic conjections with some positive results. Large scale roadworks to improve traffic flow. Also, articles are now appearing in the media on problems previously ignored and denied such as prostitution and improper forest management. There has been a recent law passed concerned directly with child prostitution. There is also elections soon to replace the military junta just after Mother is in Bangkok. We all hope these will be free and fair with a workable, efficient, non-corrupt government. These are some positive things which have begun to work out since Sahaj began in Thailand.

JAI SHRI MATAJI

Hello everyone in Sydney

I thought I should let the collective know of some events which have taken place since the end of Nov for us. I became sick at Gumpatipule after asking for a clearance at the Swazumbulu.

After one week on the floor at MUKAND LTD the company Dr ordered me to hospital as I had a serious case of hepatitis. 3 days before that 2 Indian Satija brothers who work there found me & of course gave magnificent vibrations & some green potion made at the temple on the grounds, for liver treatment. I was pathetically weak but surviving. Anyway on to hospital. Since we've been here, 15 days now, almost all the small staff of 18 have achieved realization. Other visitors have called in to chat if they speak English & have ended up with realization too. We seem to be placed here don't we?

Our brothers Pradap Singh & Narayanar Kuttu have visited almost every day sometimes with hordes of other Yogis after programmes so we have drawn a lot of attention to Satija Yoga in this KALWE & THANE area of Bombay.

3 nights ago we had a miracle. A young worker from MUKAND LTD brought his aged father into the hospital. He was crying & doubled up with pain & they could not help him. Swadistan area. He discovered his

friends here with us & asked for help. He had his realization but had not continued with it.

Kw & the 2 yogis went down & talked to the man, worked on him (Boy they use great techniques) he lost his pains in 10 mins.

The Dr's insisted on x-rays & kept him in etc. I am running out of photos of Mother so only had a mediocre one to give him & he kept it beside his bed. Had no desire of God before.

Next night Mother came to him in his dreams.

He was transformed. Apparently she sprinkled rice over him 1st & left. Later he dreamed again & she put 3 sweets in his hands blessed him & left. He had never seen Her but he knew Her. He was old but his face was transformed to that of a 25 year old. I couldn't believe my eyes. He loves Mother so deeply & is going to speak his experience at the next public programme. So the son & father are now bound in the joy. His wife got her realization easily the 1st night he was admitted. Simple country people but the depth! He discharged himself next evening.

Well that's the news if the Newsletter wants it feels free. We are learning so much from the Indian Yogis they are so powerful it gives me such faith to know that once my liver is in order I too will reach that state of full vibratory awareness.

So keep off the oils & cheeses, chocolate & into AUCR 52 & radish pop tea. It's great.

I should be out by 3rd week in time for Mother's Public programme here at DABAR 28-29
