BELLINGEN GLOBAL CARNIVAL- The Big One!

Yes, the big one! "Global" is a World Music, Dance and arts Festival. It is currently being advertised all around Australia so there should be lots of people. This years' festival, they say, is to be the best yet and is to be Held on the 3,4,5 of October. We will be participating in this Festival facilitating Self-Realisation to all that ask.

On Thursday morning Oct 2, we will be departing from Sydney to arrive that evening. We will set up the Realisation tent early on Friday Morning the first day of the festival.

We will be accommodated on Graeme and Helena Campbell's beautiful property, situated in sub-tropical rain Forrest near Valla beach. From this base we will commute every morning to the Festival in Bellingen.

It was the Wind

It was the wind that gave them life.

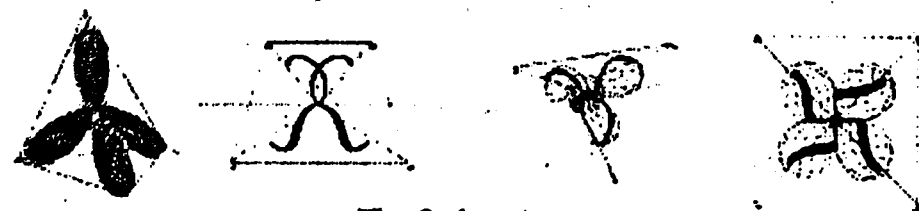

It was the wind that comes out of our mouths now that gives us life.

When this ceases to blow we die.

*In the skin at the tips of our fingers
we see the train of the wind.*

It shows us where the wind blew when our ancestors were created.

The Carbon Atom

The first view shows the orbits of the electrons as "clouds of probability" (areas they are most likely to be circling the nucleus) creating four teardrop shaped areas. When viewed from different angles one can see an Alpha and Omega together, a three-dimensional Aumkara and then a two-dimensional Swastika. The carbon atom, by containing within it these universal symbols, demonstrates that matter is innately spiritual. The Universe does not exist separately from the Universal Consciousness. It is a direct expression of it. Living matter, which is carbon based, must have a unique role in this expression. A saint is one who lives in eternal experience of this all-pervading divine purpose.

Dear Sahaja Yogis

The Canberra collective would like to invite everyone to Canberra for the long weekend 4, 5 and 6 October. We have found a beautiful scout camp which rests on a hill overlooking the Murrumbidgee River and will provide for a relaxing and vibratory aware weekend. The weekend will coincide with a major beginners programme and also Navaratri Puja.

Canberra has been getting good numbers of seekers to our programmes and we thought we would now hold a large, intensive programme for beginners. The programme will feature the 'Meditation for Health' lecture and follow up the next day at the scout camp from 11am to 4pm with practical meditation techniques and meditating on the earth etc.

Weather permitting we will hold the puja outside in the natural amphitheatre at the scout camp.

Accommodation is bunk style so people only have to bring sleeping bags and pillows. The camp has all the required facilities, including hot showers, toilets, dining hall and meandering walks to the river.

FOR SALE>

Girl's bike. As new. \$75.00.
Please phone Desney at the Jeffrey household; PH. 9416.2969

The cost for adults will be \$65 for the weekend which includes \$30 for accommodation, \$20 for food and \$15 for dakshina for Navaratri Puja. For children under 13 the price is \$45 and children under six, \$5 for food.

This will be a relaxing and enjoyable long weekend (with maybe a spot of touch football for those who are keen!) for all yogi's who can make it. You will also be contributing to the vibrations of our national capital in the middle of the spring parliamentary sitting.

To help with catering and organising we would like people to send their money by Sunday, 28 September to Alan Napper, 96 Pennyfather St, Higgins, ACT, 2615. Call Alan Napper on (02) 6254 0797 if you wish to come but can't pay by this date.

In expectation,

The Canberra collective

An Islamic Prophecy

Vibratory awareness has been hinted at in Muslim scriptures, for example, the Koran predicts that at the time of Resurrection our 'hands will speak': "That day, we set a seal on their mouths, but their hands will speak to us, and their hands bear witness to all that they did."

The Prophecies of the Twelve Imams is a collection of writings compiled by scholarly Muslims in the 9th century which refer to the time of the Last Judgement when the twelfth Imam, Mahdi (or Mahtadi), comes to save the world. The world religions (and not just Islam) "will be re-established in their original Truth and Purity by Mahdi."

The predictions go on to describe how Mahdi will integrate the religions by revealing the hidden unity behind them and there is also a reference to the vibratory awareness on the hands of the companions of the twelfth Imam (or realized souls): "For decisions they have difficulty in taking, they will receive instructions and direction from the Imam who will write on the palms of their hands."
