How to keep Mother pleased

"So how to please Mother?" I am also a very simple person, so I want a simple hearted person. So this Heart Chakra is to be first looked after, that with your heart desire, you will keep your Mother pleased. First of all your heart must be clear. If the heart is not clear, then everything has no meaning, because it is a dark heart which is doing all these things. The heart has to be clean, absolutely surrendered and must try to put Me before everything else. The Lakshmi tattva has to become Mahalakshmi tattva. That is for your ascent. And just to get into that Mahalakshmi tattva, what you have to do is to use all your material things and your material being in such a way that you please Me. You have to keep your Mother pleased by pleasing other Sahaja Yogis, and not other people.

What 'Guru Dakshina' (Gift to the Guru) have you given me? Understand that your money is not worth the dust on the feet of your Mother-Guru. You should give your hearts; only clean and holy hearts. You must clean your physical beings. You must get up early in the morning and spend at least one hour on meditation and worshipping. Perform 'Arti' and meditation in the evening.

Dallas Flies East For Tour

Last year Dallas Lynch from Perth won the Brisbane Collective's fund raising raffle. The prize was a weeks work (oops) holiday at the site of Shri Mataji's property in Brisbane. Due to a slight change in circumstances (marriage) he was regrettably unable to take the trip.

However this week sees him changing arrangements (the trip that is, not the marriage) and using the prize to fly to Sydney for Shri Mataji's tour instead.

Great "Bandhaning" Dallas.

See you in Sydney - the Brisbane Collective

DIVINE COOL BREEZE

ATTENTION ALL YOGIS AND YOGINIS &

As you are now probably aware, DCB are preparing articles for a feature concerning countries and their respective places in the Vizata. Would all yogis and yoginis who are familiar with what Sri Mataji has said about Australia - any part of it (including New Zealand) and its relationship in the Vizata kindly provide the information and time / date they heard it? Hearsay would be acceptable if a source can be named and somehow verified by other Aussies. Any information concerning

historical facts; be they ancient or modern, and also experiences which emphasize the Mooladhara within the Virata as far as Australia is concerned is also what DCB are looking for. (For example, the fact that Australia was once physically connected to India; that the quality of vibrations and awareness in Australia are quite clear-cut and black-and-white, not unlike the qualities of the Mooladhara Chakra, etc., and the associated details to illustrate that fact or experience included).

Of anyone who knows of any item which could be included in Australia's contribution to this feature could send the details to:

NEWS FROM INAUGURATION WASHI HOSPITAL

From: Amjad & Ramesh

Washi ashram has been transformed by the close attention of Yuva Shakti(unreadable).. impressive institution. Several million rupees have been spent converting rooms into private and general wards. Private rooms are available for those able to pay their expenses, while two general wards exist for those who will stay free of charge. There are three doctors' residential rooms (Prof. Rai in one). A receptionist, 24-hour watchman, live-in cook etc, etc. Life here for a Sahaja Yogi would be very close to heavenly. The plan is to admit chronic medical problems for long term Sahaj treatments only and then document their progress. It presents a fantastic opportunity for any yogi (medical or not) to live in a vibrating environment, learn Sahaj techniques, progress in their own depth and contribute in a very real way to the progress of Sahaja Yoga.

The night of the inauguration, with Shri Mataji's arrival that afternoon, was very powerful and clearing vibrations (shifting a lot of doctor's ~~catches~~) it was attended by Sahaja yogis, V.I.P.s and doctors too. Amjad and myself were very blessed as the only Western doctors - we garlanded Shri Mataji in the inauguration. Later we presented a large amount of flowers from australia as felicitations and thanks. We intended only to present these flowers and then take our leave from Her room. However, Shri Mataji then spoke extensively to us on several topics.

- (1) The positive aspects of a secular state (in contrast to states whose laws vary from religion to religion)
 - (2) The oppression of women and violent nature of Islamic culture (She is very, very concerned about this)
 - (3) Political corruption in India. (Amjad then "dobbed in" Keating and his mates!) To which She replied we ought to start our own political party in Australia.
 - (4) After hearing about political and corporate corruption in Australia She said Indian corruption might not be so bad after all.
 - (5) Australia & Australians were again complimented for the relative moderation it pursued compared to other cultures.
 - (6) Shri Mataji said that the social & political infrastructures of modern society as we know it would be completely removed in the New Age, but that we would do this by our entry into these structures and bringing about their cessation. She said that She would create a conductive atmosphere for this, but that it is up to us to expedite it.
 - (7) Approved the continuous production of "Metascience", She liked it.

(8) Many other things which we might remember later. Vibrations of that conversation (1-2hrs) were very deep and cleansing.

Medical conferences are planned in many places now. Collectives are beginning to recognise that this mode of presenting S.Y. is very credible and effective in overcoming scepticism.

Might have some more stuff to tell later, Shri Mataji was very happy to receive the flowers, the bouquet was so humungous that She described it as a "ship"
