 There is no connecting flight back to Brisbane! It might  
 be more convenient to fly out of sydney.  
 It is proposed to book sleeper berths from Bombay to Delhi.  
  
 We need to book sleeper berths 60 days prior to travel.  
 Any one going to Ganapatipule only will have to fly Qantas/air India.  
 Their travel will be at the Peak Peak time so it is imperative  
 that bookings are made urgently!! Those who travelled late  
 last year will tell you that some left at 8 hours notice!!!

### National Land Purchase.

As most people will know by now,Sri Mataji has expressed a wish for Sahaja Yoga to purchase some land in a "near country" situation. This would be for use by yogis for pujas,seminars, and other state and national functions,a sort of Australian Cabella.

After much investigation and enquiry, it has been decided that there are really only two options, or at best a combination of the two.

1..A purchase of land by Sahaja Yoga. This is obviously the most desirable option but has serious drawbacks. They are as follows. There is no chance of raising a substantial sum within the collective; the experience of the purchase of Burwood made this very clear. Even if we should raise a deposit we would then be asking people to "mortgage" their future by way of the service of what ever loan was taken out to make the purchase. This while enabling Sahaja Yoga to "own" the property does little more than pour money into the pockets of the lender and would commit the collective to at least 15 years of debt,to just gain possession of the land! Any improvements would have to be on top of that.

2..It has been discovered that there is a small band of yogis (perhaps its larger than we think)..Who have expressed an interest in the possibility of purchasing the land as a syndicate and donating an equal share to Sahaja Yoga! Their idea is to live on the property in a collective situation and to develop it with the greater collective in mind.

If one or more of the original investors should wish to move on; then Sahaja Yoga would have first right of refusal. The value would only keep pace with the CPI. It would not be regarded as an investment.

What ever happens it has become clear that we have to know how much we can expect to be able to rely on before we can possibly know where to look and how much we can pay for what!

As a result we are calling for expressions of interest. I can assure any one who may be interested that your financial offer is merely that..an offer and will remain strictly confidential; But we do need to get some idea as to how many people may wish to become involved.

So basically these are the options.

#### 1..Outright purchase by the collective.

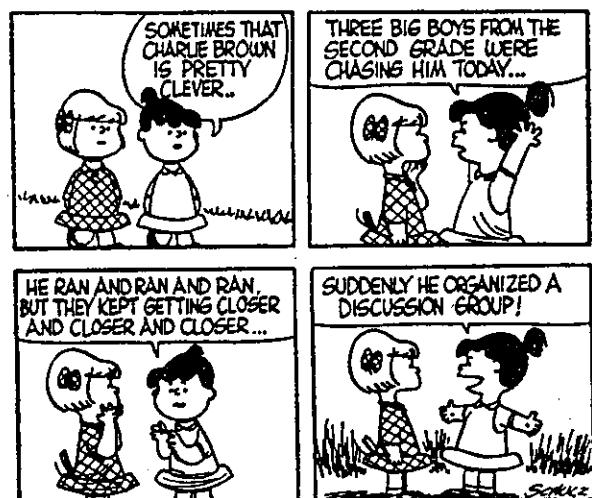

2..Raise a deposit and ask the collective to service the loan for how ever long it takes.

3..Set up a syndicate which will donate an equal share to Sahaja Yoga.

4..A combination of 1 and 3,ie:set up a syndicate and a collective input towards the equal share or by way of improvements that are deemed necessary for the quickest collective use of the property.

5..Are there any other ideas out there???
